2011 ACE International Conference Building a Tight Cooperation Among Asian Countries Toward a Sustainable Lifelong Learning Society

2011 Adult & Continuing Education of
Korea International Conference

2011. 5. 28(토) 09:30-17:00
연세대학교 교육대학원

한국성인교육학회
The Adult & Continuing Education of Korea

Greetings

On behalf of the members of the Adult and Continuing Education of Korea(ACE), I would like to invite you to the International Conference of ACE in this beautiful May at the beautiful campus of Yonsei University. We, ACE of Korea, have made effort to foster lifelong learning society and to develop appropriate lifelong learning policies and systems in Korea. In order to do so, we have been trying to put our best efforts to create visions for adult and continuing education and apply them to the field. As a result, we have carried out significant roles as representatives for lifelong learning society in Korea. The former presidents of ACE, administrators and staff, and all members have been dedicated for this purpose.

To broaden the academic domain through hosting national and international conferences regularly, we have searched out new policies and strategies for various social issues related to Adult and Continuing Education. We have a vision that the growth of countries in the 21 century depends on the ability of individuals and the nation states to conduct lifelong learning. Therefore, the theme of our international conference this time, "Beyond Marginalization: Building a Tight Cooperation among Asian Countries toward a Sustainable Lifelong Learning Society," is particularly meaningful. I sincerely hope that this conference will provide our valued national and international speakers and participants with a chance to share various issues regarding this topic together. This will lay a wonderful stepping stone for the development of sustainable lifelong learning society. Thank you.

May 28th, 2011

Professor Dr. Jin-Han Kim

President,

The Adult and Continuing Education of Korea

Proceeding Schedule
